

Take Grass Stocking and place with sealed / tied off part to the bottom of the cup.

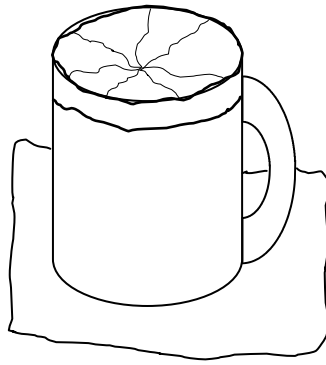

Hold stocking at the top of a cup.

Place on large sheet of paper.

Hold stocking with fingers or elastic band, so it does not fall in.

Push down to make a dip.

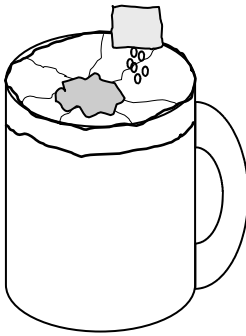

[www.grassheads.com.au](http://www.grassheads.com.au)

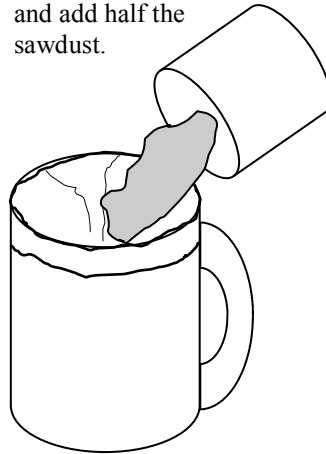

**May contain small parts, recommended for 3 years of age and above.**

**Adult supervision is recommended.**

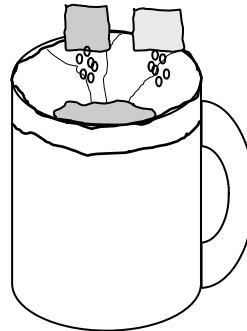

Place a pinch of sawdust in the centre and then the seed.

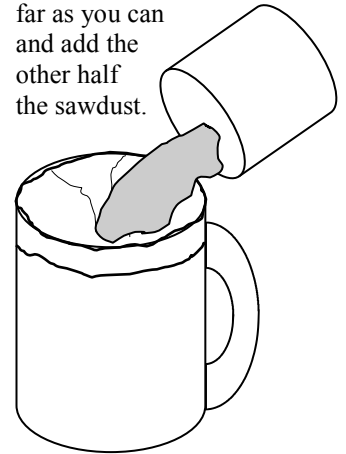

Push down as far as you can and add half the sawdust.

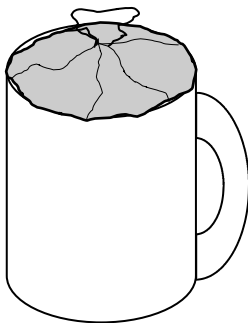

Empty water crystals and special fertilizer.

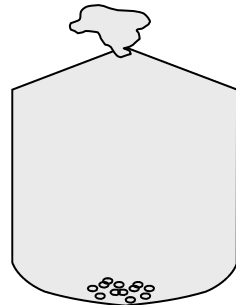

Push down as far as you can and add the other half the sawdust.

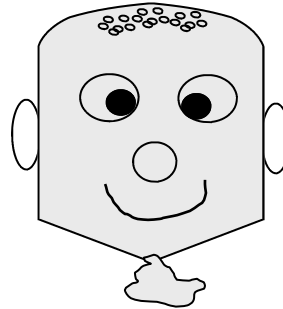

Push down the sawdust and then pull out the stocking.

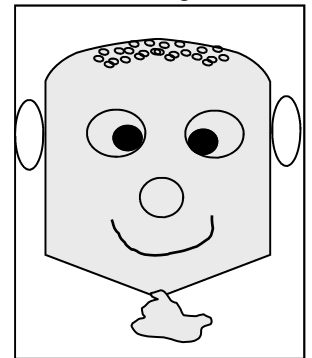

Tie off with elastic band or tie a knot and turn upside down!

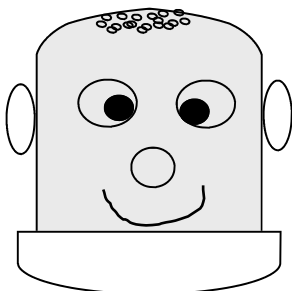

Glue on eyes and mouth with super glue. Make ears with elastic bands.

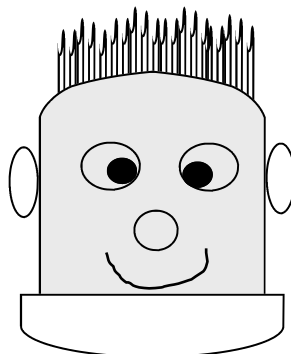

Soak in bucket of water over night.

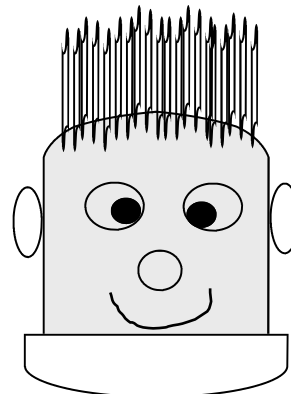

Place Grasshead into lid, then fill up with water, make sure it always has some water in it.

Place in the sun and keep checking the water.

Watch me grow over the next couple of weeks.

**Watch Me Grow**

Send you photo of your Grasshead to [grassman@grassheads.com.au](mailto:grassman@grassheads.com.au). Name and suburb.
